

Thank you for purchasing the Oleballnchain[®], the premier dog restraint system for dogs that dig under a fence! When used properly, the Oleballnchain[®] provides a safe and low cost deterrent for dog tunneling while still providing your dog the excitement of roaming freely within your fenced in yard. In addition to providing what we believe is the ultimate low cost and effective solution for dogs escaping under a fence, a portion of every sale is also donated to help homeless animals find a loving home.

We at Oleballnchain[®] believe in safety first for our products. As such, it is extremely important you read and understand the following precautions prior to first use.

WARNING! Use under adult supervision. Read all safety precautions before use. This product is not a toy.

1. Never swing ball by chain or ball end. Misuse could result in serious injury or death.
2. It is recommended this product be used only with a pet harness (not included). Never use this product with a choke collar or similar.
3. Keep away from open flames
4. Not intended to be used as a floatation device
5. Use only on dogs under adult supervision. Never leave your pet unattended for an extended period of time.
6. Clear yard of potentially hazardous items before use of this product, including obstructions. Not for use with barbed wire or electrical fences.

Parts List

1 x Toggle 1 x Chain 1 x Carabiner 1 x Tube

Also included one ball.

Assembly Instructions:

Step 1 Assemble toggle to chain. You may have to apply pressure to toggle feet to widen the loop section to ease chain insertion

Step 2 Insert chain into tube. Make sure end without toggle exits the other end of the tube.

Step 3 Open Carabiner Hook and insert chain end without toggle

Step 4 Position ball with logo on top and facing you. Turn toggle sideways and insert toggle into ball and release. Toggle will relax on the inside of the ball and permanently attach chain to ball

The Oleballnchain[®] is now ready for use!
